Dennis Albrinck
City Of Reading
Pike and Market Streets
Reading, Ohio 45215

Dear Mr. Albrinck:

Per our telephone conversation of December 18th, 1980, enclosed is a sketch of the proposed boring / well locations for the Pristine area. Proposed boring / well locations numbers 11 and 5 are believed to be located on City of Reading property. Proposed boring / well number 11 will be located near the Reading Municipal well field east of Mill Creek and north of Cincinnati Drum. Proposed boring / well number 5 will be located north of the trailer park and east of the Penn Central Railroad tracks on the old Reading Landfill property. The exact location of the proposed boring / wells will be determined in the field.

This letter will confirm my understanding that permission to drill on City of Reading property was granted per our telephone conversation of December 18th, 1980. Drill operations therefore are planned for the week of January 5th, 1980.

We would, however, appreciate receiving written confirmation that permission to drill on City of Reading property has been granted as stated above. Such letter of confirmation would then be available at the drilling site during drilling operations.

Should you have any questions concerning the above, please feel free to contact me.

Very truly yours,

Rodney T. Bloese
